Seth,

We listened into Florida Housing Committee meeting. I got disconnected twice on the call but I believe I heard most of the important issues.

Unfortunately Islamorada did not get funded. Some of the issues with the application included:

- No affordable housing preference
- No management company listed
- No evidence that the Developer was a legally formed entity
- Water, Sewer, Electricity forms should have been signed by entity providing the service
- No Application Certification and Acknowledgement form. (I remember seeing this in the application Shaun sent us)

There were a few other things as well.

Give me a call if you want to discuss.

Sincerely,

D. Scott Myers | Senior Disaster Recovery Specialist
